LUXE TEXTURES AND PRINTS LIGHTEN THE WINTER LANDSCAPE  
PHOTOS RUSSELL MILLARD

Winter fashion is all about contrast: light and dark, soft and hard, print against print. Pretty dresses are toughened up with biker jackets, while embellished silks sit under blazers for daywear. What fashion is lacking in colour it makes up for in texture with faux fur, velvet, tencel, silk, lightweight wool and leather all part of winter collections. For city dressing, resist the urge to wear head-to-toe black or grey and add interest with contrasting textures or a vibrant print.
